

Name _____

Canyon Climb

Directions: Read the passage. Then write a **summary** using only the sequence of events. Do not include any opinions.

Early one morning, three friends named Layla, Jordan, and Sam set out to hike a narrow canyon trail. They followed the dusty path as it wound between tall rock walls. Partway through their hike, they reached a steep section where they had to grab onto roots to climb higher. After reaching the top, they stopped to check their map and choose the correct turn. A few minutes later, they crossed a wooden footbridge that led to an open overlook. Finally, they reached the canyon marker that signaled the end of the trail and wrote down their finish time.

Sequence Notes - List the events in the order they happened.
