### Teacher's Guide

- Remind students to look carefully at meaning. Each **sh** word should make sense in the sentence.
- For support, read the word choices aloud and have students repeat them, emphasizing the **sh** sound.
- Allow students who struggle with reading independence to match pictures first if you provide quick doodles for each sh word.
- For extension, ask students to create one new sentence using any sh word from the box or one they think of on their own.
