- shack
- shark
- shovel
- shore

Teacher's Guide

- Support developing writers by modeling how to **trace slowly**, following each letter shape from top to bottom and left to right.
- Encourage students to say the sh sound aloud as they trace and write to build sound-to-print connection.
- For students who need more support, provide a highlighter for rainbow tracing or allow finger tracing before pencil tracing.
- For extension, ask students to choose one sh word and draw a quick picture to show its meaning or use it in a simple sentence such as "I saw a shark."
