

Oops! That's Not What I Meant... Answer Key

Task A

- Short Prompt: *"Tell me about Mercury."*
- AI Response: *"Mercury is a shiny silver liquid metal used in thermometers and science labs."*
- What was missing? The clarification that the question was about Mercury the planet, not the chemical element.
- Repaired Prompt: *"Tell me about Mercury, the planet in our solar system. Include its size, position, and what makes it different from Earth."*

Task B

- Short Prompt: *"Describe a giant."*
- AI Response: *"A giant is a big company that makes billions of dollars, like Apple or Amazon."*
- What was missing? The clarification that the giant was meant to be a mythical creature, not a company.
- Repaired Prompt: *"Describe a giant as a character in mythology or fantasy stories. Include details about its size, appearance, and personality."*
