

Name _____

Short and Sweet... or Long and Strong?

A short prompt is quick to write, but it leaves the AI to decide most of the details.

A long prompt takes more time, but it gives the AI clear instructions, so the results are closer to what you want. Your task is to take each **short prompt below and transform it into a long, detailed prompt**. Add details such as tone, length, style, or structure. Make your version clear and specific without being repetitive.
