## Sight Word Gaps Answer Key

1. am
2. We
3. has
4. We
5. said
6. My
7. have
8. We
9. they
10. The

### Teacher Notes / Guide

**Objective:** This exercise strengthens **automatic recognition** of sight words through context-based reading, while improving fluency through multiple rereads.

### Implementation Tips:

- Before beginning, **preview** the sight words orally. Have students read them from flashcards or a chart.
- Model one example aloud (“I \_\_\_ going to the park today. Hmm... ‘I am going’ sounds right.”).
- Encourage rereading after completing the blanks to build **speed, confidence, and expression**.
- Use a timer or fluency chart to track improvement across rereads.

### Differentiation:

- For emerging readers: Provide word cards for them to physically place in blanks before writing.
- For advanced readers: Challenge them to write two original sentences using words from the Word Bank.
