

## Yesterday's Camping Answer Key

### The Camping Trip (completed)

Last weekend, Leo and his friends **decided** to go camping in the forest. They **packed** their bags with food, flashlights, and sleeping bags. Early in the morning, they **left** the city and **drove** to the campsite.

When they arrived, they **set** up their tents near the river. Leo **collected** some firewood while Mia **helped** him carry it back. Later, they **built** a campfire and **cooked** marshmallows.

At night, they **heard** owls in the trees and **told** funny stories around the fire. Everyone **laughed** loudly and **felt** happy. Finally, they **slept** under the stars until the morning sun **woke** them up.

### Teacher Notes / Guide

- **Objective:** Practice forming and applying **simple past tense verbs** in a meaningful story context.
- **Method:** Students use verb clues in parentheses to transform base verbs into past tense, reinforcing both recognition and production.
- **Differentiation:**
  - For beginners: Provide a verb word bank with past tense forms.
  - For advanced learners: Remove the base verbs in parentheses so students must choose the correct verbs independently.
- **Extension Idea:** Have students continue the story with 5 **original sentences** using different simple past verbs.
