Teacher Notes / Guide

- **Objective:** Practice recognizing **logical sequencing** in stories while reinforcing **simple past tense** verb use.
- **Method:** Students must not only spot the correct past tense verbs but also arrange them into a coherent timeline.
- **Differentiation:**
 - For beginners: Provide time markers (e.g., "First," "Next," "After that").
 - For advanced students: Remove letters (A-F) and ask them to rewrite as a full paragraph.
- **Extension Idea:** Have students create their own 5-6 sentence past-tense story and scramble it for a partner to reorder.
