### Teacher Notes

- This activity focuses on **active production** of the simple present tense rather than recognition.
- Look for correct **subject-verb agreement** and **spelling rules** (e.g., *fly* → *flies*, *have* → *has*).
- Encourage students to be **creative** with their sentences instead of repeating the same pattern.
- Extension: Turn this into a **partner game** where students give each other verbs and check their partner's sentences for accuracy.
