

Name _____

Fraction Ladder

Directions: Complete each fraction ladder by filling in the missing equivalent fractions. The last box should always be the fraction in simplest form.

$$1) \frac{12}{18} \rightarrow \underline{\hspace{2cm}} \rightarrow \frac{2}{3}$$

$$2) \frac{16}{24} \rightarrow \frac{8}{12} \rightarrow \underline{\hspace{2cm}} \rightarrow \frac{2}{3}$$

$$3) \frac{15}{25} \rightarrow \underline{\hspace{2cm}} \rightarrow \frac{3}{5}$$

$$4) \frac{18}{30} \rightarrow \frac{9}{15} \rightarrow \underline{\hspace{2cm}} \rightarrow \frac{3}{5}$$

$$5) \frac{20}{28} \rightarrow \underline{\hspace{2cm}} \rightarrow \frac{5}{7}$$

$$6) \frac{24}{36} \rightarrow \frac{12}{18} \rightarrow \underline{\hspace{2cm}} \rightarrow \frac{2}{3}$$

$$7) \frac{21}{35} \rightarrow \underline{\hspace{2cm}} \rightarrow \frac{3}{5}$$

$$8) \frac{27}{45} \rightarrow \frac{9}{15} \rightarrow \underline{\hspace{2cm}} \rightarrow \frac{3}{5}$$

$$9) \frac{14}{42} \rightarrow \underline{\hspace{2cm}} \rightarrow \frac{1}{3}$$

$$10) \frac{32}{48} \rightarrow \frac{16}{24} \rightarrow \underline{\hspace{2cm}} \rightarrow \frac{2}{3}$$
