

Name _____

Simplify Check

Directions: Decide if each fraction is already simplest or can be simplified. If it can be simplified, write the simplest form.

Fraction	Already Simplest? (Yes/No)	Simplest Form
1) $\frac{3}{5}$		
2) $\frac{4}{12}$		
3) $\frac{7}{9}$		
4) $\frac{10}{15}$		
5) $\frac{8}{11}$		
6) $\frac{12}{18}$		
7) $\frac{5}{8}$		
8) $\frac{9}{27}$		
9) $\frac{14}{16}$		
10) $\frac{11}{13}$		
11) $\frac{18}{24}$		
12) $\frac{15}{16}$		

Challenge: Choose one fraction that can be simplified. Write one sentence explaining how you knew it was not in simplest form.
