10. Suspension bridge

Teacher Notes / Guide

Purpose: This worksheet enhances **skimming and scanning fluency** by training students to locate factual details quickly within nonfiction texts. Students strengthen their ability to extract **quantitative and proper noun information**, improving both reading speed and accuracy for content-area reading.

Implementation Tips:

- Use a **timer** to create a race-like atmosphere (e.g., 3 minutes).
- Encourage students to look for **capital letters, numbers, and measurement words**; visual cues that help locate facts quickly.

Extension Ideas:

- Have students write **three new fact-finding questions** for a partner using the same passage.
- Ask students to highlight the **signal words** that helped them locate answers fastest.
- Integrate cross-curricular links by connecting this text to **engineering** or **geography** lessons about bridges and structures.
