

Name _____

AI Spy with My Little Eye

Artificial Intelligence (AI) is sneaky. It hides inside the apps you use every single day, shaping what you see, hear, and click on-sometimes without you even noticing. Your mission today: turn on your **AI Radar** and uncover where the bots are secretly doing the work.

Directions - For each app or service below, write **ONE sentence** explaining where AI is at work. Be specific! Don't just say "it uses AI"-point out what the AI is actually *doing*.

💡 **Example: Spotify** → AI creates personalized playlists by studying what songs I listen to on repeat.

Your AI Radar: The Sneaky Dozen

1. TikTok → _____
2. Google Maps → _____
3. Netflix → _____
4. Gmail's Spam Filter → _____
5. Instagram → _____
6. YouTube → _____
7. Amazon → _____
8. Snapchat → _____
9. Duolingo → _____
10. Zoom (video calls) → _____
11. Online Shopping Ads → _____
12. Siri or Alexa → _____

Reflection Question

Which of these apps surprised you the most with how much AI is working in the background? Why?
