

Name _____

From Robot to Real Talk

AI can write essays, reviews, and even stories. But sometimes the writing sounds a little... off. It may repeat itself, feel too stiff, or use strange wording that a real person wouldn't say. Your challenge: take the awkward AI writing and **rewrite it so it sounds natural**.

Directions - Read each AI-written paragraph carefully. Rewrite it in your own words so it flows better and feels more human. Write one sentence explaining what you changed and why.

Awkward AI Paragraph #1 - *"The movie was very exciting because it had many exciting parts that were filled with excitement. The characters were exciting, and the story was exciting as well, which made the movie exciting to watch."*

Your Rewrite:

What I Changed & Why:

Awkward AI Paragraph #2 - *"Pizza is a food that is eaten by many people. Pizza has cheese and crust and sauce. The pizza can be good because it is enjoyable, and it is good for when people are eating it."*
