

From Robot to Real Talk Answer Key

Awkward AI Paragraph #1

"The movie was very exciting because it had many exciting parts that were filled with excitement. The characters were exciting, and the story was exciting as well, which made the movie exciting to watch."

Sample Rewrite:

The movie kept me on the edge of my seat. The characters were fun to follow, and the story had enough twists to keep me guessing until the end.

What Changed & Why:

- Replaced **repetition of "exciting"** with more descriptive words (*fun, twists, kept me guessing*).
- Added a **personal reaction** ("kept me on the edge of my seat").
- Made the writing flow naturally instead of sounding robotic.

Awkward AI Paragraph #2

"Pizza is a food that is eaten by many people. Pizza has cheese and crust and sauce. The pizza can be good because it is enjoyable, and it is good for when people are eating it."

Sample Rewrite:

Pizza is one of the most popular foods in the world. A warm crust topped with melted cheese and tangy tomato sauce makes it a favorite for parties, family dinners, or late-night snacks.

What Changed & Why:

- Added **specific, sensory details** (*warm crust, melted cheese, tangy tomato sauce*).
- Removed unnecessary phrases like *"good for when people are eating it."*
- Made the description sound more natural and appealing.
