### Teacher's Guide

- Review the difference between **nouns** and **verbs** using simple examples before students begin sorting.
- Read all spr words aloud and clarify meanings to support emerging readers.
- Provide a visual anchor chart showing noun examples and verb examples if needed.
- For extra support, ask students to act out verb words like spray, sprint, and sprinkle.
- For extension, have students turn one noun from the list into a sentence and one verb into another sentence to strengthen grammar and vocabulary connections.
