Teacher's Guide

- Use this worksheet after introducing or reviewing **three letter blends**, especially **spr** words.
- Model how to scan each row slowly and look for the three letter blend at the start of a word.
- Provide highlighters or crayons so students can emphasize the spr pattern visually.
- For differentiation, give emerging readers a smaller set of spr words on cards to practice before completing the worksheet.
- For extension, have students write three new spr words and draw a quick picture to show their meaning.
