### Teacher's Guide

- Read the word bank aloud and discuss the meaning of each word before students try the riddles.
- Encourage students to underline clue words in each riddle such as tiny plant, fast run, or twist your ankle.
- Offer picture clues for emerging readers who may need additional context to solve the riddles.
- For extension, have students create their own spr riddles and share them with a partner or small group.
- For support, allow students to eliminate words from the bank as they use them, helping narrow remaining choices.
