Teacher's Guide

- Review the **spr** blend before starting. Say several spr words aloud and have students repeat to strengthen phonemic awareness.
- Encourage students to reread each sentence and check for meaning clues. Highlight how **context** helps choose the correct spr word.
- For support, allow students to underline action words or nouns in the sentences to narrow down choices.
- For challenge, have students write their own sentence using a new spr word not on the worksheet.
- Provide visual aids or small picture cards for sprout, sprig, sprain, and sprinkle to help emerging readers connect meaning to words.
