## Problem-Solution Pairs

Every story has a **problem** (something goes wrong) and a **solution** (how it gets fixed). Good readers can connect them together.

**Directions:** Read the problems in Column A and the solutions in Column B. Write the correct letter from Column B that matches each problem in Column A.

### Column A - Problems

1. Jonah forgot his lunch at home. \_\_\_\_\_
2. A storm knocked out the electricity in Mia's neighborhood. \_\_\_\_\_
3. Daniel's bike chain broke while he was riding to school. \_\_\_\_\_
4. Olivia's poster for the science fair ripped in half. \_\_\_\_\_
5. The soccer team was losing because no one would pass the ball. \_\_\_\_\_

### Column B - Solutions

- A. Her teacher gave her tape to fix it before presenting.
- B. The team had a meeting and agreed to share the ball more.
- C. Jonah's friend shared a sandwich with him at lunch.
- D. Daniel's neighbor helped him fix the chain with tools.
- E. Mia's family used candles until the power came back on.
