Homework Trouble Map

Directions: Read the short story below. Then, fill in the story map organizer.

The Missing Homework

Ethan sat at his desk and pulled out his backpack. His stomach dropped—his math homework was missing! He remembered placing it on the kitchen table the night before. Ethan quickly raised his hand and explained to his teacher what happened. After class, his teacher let him call home. His mom checked and found the homework still sitting on the table. She snapped a picture and emailed it to the teacher. Ethan sighed with relief, thankful that the problem was solved.
