

Name _____

Inverse And Check

Directions: Find the missing number in each subtraction equation. Use inverse operations to check your answer.

1. $\square - 4.75 = 8.32$

2. $15.60 - \square = 7.85$

3. $18.43 - 9.28 = \square$

4. $\square - 6.14 = 12.09$

5. $20.00 - \square = 8.56$

6. $13.75 - 5.89 = \square$

7. $\square - 7.48 = 9.27$

8. $16.92 - \square = 5.67$

9. $25.14 - 8.79 = \square$

10. $\square - 12.36 = 14.08$
