

Name _____

Subtracting Data

Directions: Use the data table to answer each question. Subtract the decimal values to find each difference.

Science Plant	Height After 4 Weeks (cm)
A	18.75
B	16.40
C	21.35
D	19.80
E	17.95

1. How much taller is Plant C than Plant A?	2. What is the difference in height between Plant D and Plant B?
3. How much taller is Plant E than Plant B?	4. How much taller is Plant C than Plant D?
5. What is the difference in height between Plant A and Plant E?	6. How much taller is Plant C than Plant B?
7. What is the difference in height between Plant D and Plant A?	8. Which two plants have the smallest difference in height? What is that difference?
9. Which two plants have the greatest difference in height? What is that difference?	10. A student says, "Plant A is about 2 cm shorter than Plant D." Is the statement reasonable? Show the actual difference.
