

Name _____

Exit Slip: Summarizing Drill

Directions: Read the passage below. As your exit slip after today's class, write a summary of it in 2-3 sentences that captures the most important information.

An **exit slip** is a short reflection at the end of class. A **summary exit slip** helps you prove you understood the text by shrinking it down into just a few sentences. Remember: a good summary answers **who, what, where, when, and why** without all the extra details.

The Fire Drill

The loud alarm rang through the school hallway on Tuesday morning. Students quickly lined up with their teachers and walked outside to the playground. Everyone waited calmly while the principal checked that the building was safe. After a few minutes, the teachers led their classes back inside to continue the day.

Write Your Exit Slip Summary:
