

Name _____

Nordic Comparison

Directions: Choose Norway, Denmark, or Finland. Write a short comparison explaining how Sweden's geography and human systems are similar to and different from the country you selected. Answer the guiding questions in complete sentences.

1. How does Sweden's **physical geography** compare with that of the country you chose? (mountains, forests, coastline, climate)
2. How do **population patterns** differ or overlap between the two countries? (urban centers, rural regions, size and density)
3. How do both countries use their **natural resources**? (forestry, fishing, mining, renewable energy)
4. How do their **human systems** compare? (transportation, economic activities, education, public services)
5. In your opinion, which geographic or human system difference is the most important and why?

Write at least one well-developed paragraph. You may write more if needed.
