Teacher's Guide

- Use this worksheet with Grades 1 to 2 to reinforce recognition of **initial T-blends** and connect them with meaning.
- For students who need support, say each word aloud and have them repeat before matching to strengthen auditory recognition.
- Provide picture cards for students who benefit from manipulating visuals before writing answers.
- For students ready for enrichment, ask them to write a simple sentence using two of the T-blend words after completing the activity.
- Increase engagement by turning it into a partner game where one student reads the label and the other points to the matching picture description.
