Word 1: train
Word 2: trap

Teacher's Guide

- This worksheet supports Grades 1 to 2 students in manipulating **T-blends** while practicing phoneme substitution at the ending of each word.
- Encourage students to say each word aloud and stretch the sounds before writing new ones.
- Provide a small list of common T-blend words for students who need more support.
- Challenge advanced students by having them create full sentences with each new word they build.
- Increase engagement by letting students take turns orally suggesting ending changes and having the class decide if the new word is real.
