### Teacher's Guide

- This worksheet is designed for Grades 1 to 2 and reinforces **T-blend vocabulary** inside a simple connected text.
- Read the word list aloud before students begin so they can hear the blends clearly. Point out the **tr** and **tw** patterns.
- Provide support by letting students place a finger on each blank while rereading the sentence to check which word makes sense.
- Challenge advanced students by having them write one extra sentence that continues the story using another T-blend word.
- Increase engagement by having students partner-read the completed mini-story to build fluency and comprehension.
