Teacher's Guide

- Use this activity with Grades 1 to 2 to strengthen recognition of **initial T-blends** in a playful, low-pressure format.
- Before starting, model how to read a silly word and explain that it is OK if it sounds funny; students only circle **real** words.
- For students who need support, preview the real words by practicing them orally before the worksheet.
- For more challenge, ask students to write one new **real** T-blend word under the list and read it to a partner.
- Turn it into a movement activity by having students stand up and hop once for **tr** words and twice for **tw** words after reading each one aloud.
