Teacher's Guide:

- **Differentiation Tips:**
 - Read the sentences aloud first for students who benefit from auditory processing support.
 - Provide visual cue cards for each word (e.g., picture of sharing, listening, or helping).
 - Allow students to choose from two possible answers for each blank if additional scaffolding is needed.
- **Engagement Strategies:**
 - Have students act out one sentence after completing the worksheet to show understanding through movement.
 - Use small groups to complete the activity collaboratively to reinforce real teamwork.
- **Extension Ideas:**
 - Ask students to write one new teamwork sentence using a word from the word bank.
 - Create a classroom "Teamwork Wall" where students post examples of real-life cooperation they see during the week.
