

Name _____

Technical Term Spotlight

Directions: Choose one of the technical terms below. Write a short paragraph (5 to 7 sentences) that **defines** the term, **explains** how it is used in its academic or professional field, and gives a **real-world example** of its application. Use clear, precise language to demonstrate understanding of both meaning and context.

Choose One Term:

entropy

isotope

momentum

ecosystem

inflation

encryption

algorithm

genome

Your Paragraph:
