| 1. address | 6. private |
| 2. midnight | 7. respect |
| 3. password | 8. family |
| 4. photos | 9. oversharing |
| 5. location | 10. school |

Teacher's Guide

- **Differentiation Tips:**
 - Read each sentence aloud for auditory learners or provide picture cues for words like "photos" or "school."
 - Give multiple-choice options for each blank for students needing extra support.
 - Let advanced learners create their own digital boundary sentences using the same word bank.
- **Engagement Ideas:**
 - After completing the worksheet, discuss how oversharing can impact friendships or safety.
 - Have students create short "Safe Sharing" posters or slogans using the completed sentences.
- **Extension Activities:**
 - Ask students to role-play a situation where someone crosses a digital boundary and show how to respond politely.
 - Invite them to write a short "Digital Safety Promise" summarizing how they'll protect personal information online.
