

Name _____

AI, Robotics, or Both? Answer Key

AI

- Google Translate
- Chatbot for customer service
- Smart thermostat (learns habits)
- Netflix recommendations
- Face recognition to unlock a phone
- Virtual teacher online

Robotics

- Robotic lawn mower (schedule only, no learning)
- Self-checkout machine
- Factory robot welding metal
- 3D-printing robot arm
- Prosthetic robotic hand (controlled directly by a person)

Both

- Drone delivering packages
- Tesla self-driving mode
- Robotic vacuum that maps your house
- Smart refrigerator (tracks food + suggests recipes)
