Teacher's Guide

- Encourage students to look for familiar patterns in **scr**, **spr**, **spl**, and **str** to build confidence with complex blends.
- Support emerging readers by modeling how to blend the three consonants smoothly before adding the rest of the word.
- Provide picture cards or simple drawings for students who benefit from visual cues, especially for words like sprout or sprinkle.
- For extension, invite students to **write their own sentence** using two or more completed blend words or to create a short mini-story using three of them.
