## Daylight Saving Time Sort

Time zones divide the Earth into regions where the same standard time is used. Some countries also use **Daylight Saving Time (DST)**, shifting their clocks forward in spring and back in autumn, while others keep the same time all year.

Understanding which countries use DST helps us see how people adapt to Earth's rotation, sunlight, and daily schedules.

**Directions:** Below is a list of 14 countries. Your task is to **sort them into two groups:**

- Countries that **use Daylight Saving Time (DST)**
- Countries that **do not use Daylight Saving Time (No DST)**

Write each country's number below the correct column.

1. United States

6. India

11. China

2. Japan

7. Australia

12. United Kingdom

3. Germany

8. Russia

13. South Korea

4. Philippines

9. Brazil

14. Argentina

5. Canada

10. Mexico

Uses Daylight Saving Time (DST)	Does Not Use Daylight Saving Time (DST)

**Critical Thinking Extension:** Why do you think some countries choose **not** to use Daylight Saving Time?
