Name _____

Shift Pair Match Answer Key

1. I
2. D
3. G
4. F
5. A
6. B
7. H
8. C
9. J
10. E

Teacher's Guide

- Quick implementation: Review elapsed-time calculation with one example, then have students solve each shift before selecting a match.
- Differentiation: Allow students to use a timeline or calculate the hours and minutes separately.
- Differentiation: For extra support, eliminate answer-bank choices as they are used.
- Engagement: Have students work as payroll clerks matching employee time punches to calculated shift records.
- Extension: Ask students to convert each shift length into total minutes.
