Teacher's Guide

- Quick implementation: Review that the whole-number part represents hours and the decimal part represents a fraction of an hour.
- Differentiation: Begin with familiar decimals such as 0.25, 0.50, and 0.75 before students complete the other conversions.
- Differentiation: Allow students to use a calculator to multiply the decimal portion by 60.
- Engagement: Have students act as payroll assistants decoding computerized time records into hours and minutes.
- Extension: Ask students to reverse each calculation by converting the hours and minutes back into decimal hours.
