Teacher's Guide

- Quick implementation: Explain that employees with 40 hours or fewer have no overtime under the worksheet rule.
- Differentiation: Have students first circle totals above 40, then subtract 40 to find the overtime hours.
- Differentiation: Challenge advanced students to convert half-hours into minutes.
- Engagement: Have students act as payroll reviewers checking which employees earned overtime.
- Extension: Give students hourly pay rates and an overtime rate of 1.5 times regular pay, then have them calculate total weekly earnings.
