Name _____

Paycheck Math Answer Key

1. $528.00
2. $675.00
3. $673.75
4. $673.75
5. $870.00
6. $744.60

Teacher's Guide

- Quick implementation: Review the gross pay formula and model one multiplication problem before students begin.
- Differentiation: Allow students to use calculators or provide the multiplication setup for students needing additional support.
- Differentiation: Begin with whole-number hours before assigning problems containing half-hours.
- Engagement: Have students act as payroll clerks calculating the earnings shown on completed employee timecards.
- Extension: Ask students to compare the six gross-pay amounts and determine the highest, lowest, and difference between them.
