Name _____

Weekly Time Check Answer Key

1. 37 hours
2. 39 hours
3. 35 hours
4. 40.5 hours
5. 32.5 hours
6. 37.5 hours

Teacher's Guide

- Quick implementation: Review that 0.5 hour equals 30 minutes, then have students add the five daily amounts for each employee.
- Differentiation: Let students add two daily amounts at a time and record each subtotal.
- Differentiation: Challenge advanced students to express totals containing 0.5 hour in hours and minutes.
- Engagement: Have students act as payroll assistants checking whether each weekly record was totaled correctly.
- Extension: Ask students to identify which employees worked more than 40 hours, exactly 40 hours, or fewer than 40 hours.
