Name _____

Lighthouse Proof Answer Key

1. True - "On Saturday morning, a group of students visits the old lighthouse on Harbor Point."
2. False - "A guide leads them up a narrow staircase with one hundred steps."
3. True - "At the top, the students look out over the gray ocean and spot a sailboat moving slowly across the water."
4. True - "The guide explains that the lighthouse once helped ships avoid the sharp rocks near shore."
5. False - "Before leaving, the group sketches the lighthouse in their notebooks and buys postcards from the small gift stand."
6. True - "Before leaving, the group sketches the lighthouse in their notebooks and buys postcards from the small gift stand."
7. True - "On Saturday morning, a group of students visits the old lighthouse on Harbor Point."
8. False - "A guide leads them up a narrow staircase with one hundred steps."

Teacher's Guide

- Review what **text evidence** means before students begin.
- Model how to copy **one full sentence** as proof instead of giving a short phrase.
- For support, allow students to highlight the proof sentence in the passage first.
- For engagement, have students compare answers with a partner and check each other's evidence.
- For extension, ask students to write one new true statement and one new false statement using the passage.
- For enrichment, challenge students to explain how a **small word change** can flip a true statement into a false one.
