Name _____

Planetarium Puzzles Answer Key

Set One

- Lie: 2
- Proof: "The students file into the dark planetarium and sit in soft, round seats."

Set Two

- Lie: 6
- Proof: The passage never states that the guide teaches the class how to build a rocket.

Set Three

- Lie: 9
- Proof: "Afterward, the class visits the gift shop, where several students buy glow in the dark star stickers."

Teacher's Guide

- Review what makes a **statement a lie** versus something that is simply not mentioned.
- Model how to copy the **exact proof sentence** before students complete all sets.
- For support, allow students to highlight the sentence that disproves each lie first.
- For engagement, let students work in pairs and defend their choice using text evidence.
- For extension, have students write their own **two truths and one lie** about the passage.
- For enrichment, challenge students to revise one lie into a true statement using precise wording.
