## Eggs In The Nest Answer Key

- The nest outline should have eggs placed inside.
- Correct execution shows control and precision with tweezers.

### Teacher's Guide

#### Tips for Use

- Demonstrate first: "Pinch, lift, and place softly in the nest."
- Encourage verbal counting as children move each egg.
- Use positive language: "You're helping the bird family stay fed!"

#### Differentiation Ideas

- For beginners: use larger "eggs" (ping pong balls or cotton balls).
- For advanced learners: use smaller items (fuzzy pom-poms or beads).

#### Engagement Boosters

- Tell a mini story: "The mama bird needs your help filling her nests!"
- Play bird chirping sounds for an immersive environment.
- Let children name each baby bird before starting.

#### Extension Activities

- Color the birds after completing the activity.
- Repeat the game using different themes (e.g., "Dinosaur Egg Rescue" or "Farm Egg Sort").
