Teacher's Guide

- This map activity strengthens students understanding of where Ukraine is located and how it connects to surrounding regions.
- Encourage students to use a labeled map as a reference while answering.
- Point out bolded words such as **Black Sea**, **Eastern Europe**, and **borders** to reinforce geographic vocabulary.

Engagement Ideas

- Use a large classroom map and let students come up to point out Ukraine and its neighbors.
- Have students compare Ukraine's shape to a familiar object to make the concept memorable.
- Create a quick group challenge where students list as many Ukrainian neighbors as they can in thirty seconds.

Extension Activities

- Ask students to draw their own simple map of Europe highlighting Ukraine.
- Challenge advanced learners to identify additional cities or geographic features on the map.
- Invite students to write two facts they learned about Ukraine's location and share with the class.
