Teacher's Guide

- This activity helps students strengthen their understanding of the difference between **physical features** and **human features** in geography.
- Review definitions before students begin.
- Encourage students to underline clues that show whether something is natural or created by people.

Engagement Ideas

- Show photos of mountains, cities, plains, and traditions in Ukraine to spark discussion.
- Have students stand or sit to vote on each feature as physical or human before writing answers.
- Create two signs labeled Physical and Human and let students move to each side of the room as they respond.

Extension Activities

- Ask students to create two new statements of their own and label them correctly.
- Have advanced learners explain in writing why one physical feature and one human feature matter to Ukraine's people.
- Invite students to research one physical landform or cultural activity in Ukraine and share a short fact with the class.
