7. Tourism.
8. It produces goods that can be sold to other countries.
9. Manchester, Cambridge, or London.
10. Answers will vary but should describe cooperation such as technology improving manufacturing or finance supporting business growth.

Teacher's Guide

- Encourage students to annotate each paragraph by circling key terms.
- Read descriptions aloud for students who benefit from auditory support.

Engagement Ideas

- Display photos of UK factories, tech offices, historic landmarks, and the London financial district.
- Invite students to discuss which industry affects their daily life the most.
- Hold a quick class poll asking students which industry they would work in.

Extension Activities

- Assign a short research project on one UK company within any of the four industries.
- Have students create a mini infographic summarizing one industry using only text.
- Ask students to write a paragraph predicting which UK industry will grow the fastest in the future and why.
