### Teacher's Guide

- Focus students on how vowel digraphs work together to make one sound. Highlight the vowel teams in each option before reading.
- Encourage students to read the whole sentence first, then test each word aloud to see which meaning fits.
- For learners needing support, provide simple picture cues for tricky homophones such as peak and peek or hear and here.
- Extension idea: Have students write two sentences of their own using homophone pairs with vowel digraphs.
