

Name _____

A Day In The Farm Answer Key

boil

coin

cow

flower

shout

join

Teacher's Guide

- Begin with a quick review of **oi**, **oy**, **ou**, and **ow** to remind students that diphthongs create gliding vowel sounds.
- Allow students to read the word bank first and practice saying each word aloud. This supports correct matching and comprehension.
- For learners who need extra support, highlight the first missing blank and model how to check meaning with each possible word.
- Extend the activity by having students write an additional sentence for the story using one more diphthong word or draw a scene showing one of the filled-in events.
