Teacher's Guide

- Begin by reviewing the diphthong sounds **oi/oy** and **ou/ow**. Model how the vowel sound glides as it is spoken.
- Read each picture name aloud for learners who need decoding support.
- For students who need scaffolding, group the word bank into two parts: **oi/oy words** and **ou/ow words**.
- To extend learning, have students choose one diphthong word and write a sentence or draw a new picture that matches the sound pattern.
