| 2. boat | 7. float |
| 3. seal | 8. sweet |
| 4. peek | 9. bean |
| 5. train | 10. neat |

Teacher's Guide

- **Skill Focus:** This worksheet targets recognition of common vowel teams ai, ea, oa, ee, and ie. Students practice identifying which team correctly completes familiar words.
- **How to Teach:** Model the first one by thinking aloud. Say the incomplete word, try each vowel team aloud, and choose the one that makes a real word. Students then work independently or with partners.
- **Differentiation Tips:**
 - For students who need support, provide a mini word bank with pictures.
 - For advanced students, ask them to write their own sentences using three completed words.
 - Allow tactile learners to build the vowel teams with letter tiles before circling.
- **Engagement Ideas:**
 - Turn the worksheet into a timed challenge where students race to complete five items correctly.
 - Have students read their completed words aloud to a partner to reinforce fluency.
 - Create a class vowel team chart and add new words students discover during reading.
